

## **Cleaning and Safety Measures at NC**

As we look toward opening our church to the public, North Church will be implementing the following safety and cleaning measures. Our measures will be adapted as we progress through various stages of opening.

### **Cleaning/Sanitizing:**

Mid-week: For groups less than 10 that have been pre-approved to gather inside our building, we are implementing the following:

- Gathering spaces are limited to rooms big enough to still maintain social distance.
- High Traffic areas such as tables, counter tops, and door handles are cleaned with disinfectant solution
- Attendance of participants is taken.
- Hand sanitizer and access to hand washing stations are readily available.

Sunday: Our services are limited to 150 people. Please register online.

- High touch areas are cleaned before and after each service with disinfectant solution
- Bathrooms are limited to 2 people at a time
- Masks are required for everyone ages 5+

### **Staff and Volunteer Teams:**

- Our staff and volunteer teams are limited in number to meet essential needs only.
- Team meetings are hosted in a space big enough to maintain 6ft of social distance.
- All staff and volunteers interacting with people are wearing masks.
- Staff and volunteers are screened before being allowed to serve.

### **Bathrooms:**

We have placed signs in and around our bathrooms to clearly define our bathroom policy which includes:

- No more than 2 people per bathroom.
- Marked lines to help maintain social distance while waiting in line for the bathroom
- Hand washing aids to encourage proper personal hygiene.
- Bathrooms are cleaned with a disinfectant solution on a weekly basis and before and after special events and between services.
- In the event bathrooms and handwashing stations are not accessible, hand sanitizer will be readily available.

**North Kids:**

North Kids has implemented strategies to encourage learning while also maintaining safety measures.

- All Kids Staff and Volunteers are wearing masks while interacting with parents and kids.
- Parents are notified of sick kid policy before arriving.
- All staff, volunteers and kids are screened before participating in the North Kids Services
- Hand sanitizer is readily available.
- Attendance of participants is taken
- Pick up and drop off times are staggered to allow for proper social distancing.
- Text to Check In is touch free
